

## Support and Resources for EVA Families

Meeting the many needs of a child can be challenging, and every family encounters obstacles along the way. Oregonians believe in the importance of caring for the *whole* child – both mind and body. Thanks to the work of non-profit organizations, state and country programs, and school-based offerings, parents can access extra help when needed.

Education is the path to long-term success for every child. Getting each student to attend school and avoiding regular absences is vital. Common reasons students miss virtual school include:

- Health concerns or recurring illness
- Emotional or mental health issues
- Housing or homelessness
- Physical needs such as food or clothing
- Safety concerns
- Motivation to attend school
- Challenges with academics
- Conflicts with parent work schedules
